## DETAILED ACTION

### *Election/Restrictions*

1. Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

Group 1, claim(s) 1-6, and 13-20, drawn to methods of purifying a fluid.

Group 2, claim(s) 7-12, drawn to a static mixer.

2. The inventions listed as Groups I and II do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons: The common technical features between the method of purifying the liquid and the static mixer are specifically related to the configuration of the static mixer wherein the mixer has a main body cylindrical unit, a hollow inlet disk, and a hollow outlet disk, wherein a collision cylinder has a diameter greater or equal to the inlet and smaller than the inside diameter of the mixer body and is fixedly housed concentrically in the body, and where groove or a protrusion on a part of the interior face of the mixer body and the collision cylinder. These common technical features are shown in U.S. Patent No. 5,779,361 to Sugiura (See Fig. 1 and col. 2 lines 5-35).

3. A telephone call was made to Joseph Ruch, Jr., Esq. on May 13, 2008 to request an oral election to the above restriction requirement, but did not result in an election being made.

Applicant is advised that the reply to this requirement to be complete must include (i) an election of a species or invention to be examined even though the

requirement may be traversed (37 CFR 1.143) and (ii) identification of the claims encompassing the elected invention.

The election of an invention or species may be made with or without traverse. To preserve a right to petition, the election must be made with traverse. If the reply does not distinctly and specifically point out supposed errors in the restriction requirement, the election shall be treated as an election without traverse.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Lucas Stelling whose telephone number is (571)270-3725. The examiner can normally be reached on Monday through Thursday 12:00PM to 5:00PM.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Duane Smith can be reached on 571-272-1166. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.

Information regarding the status of an application may be obtained from the Patent Application Information Retrieval (PAIR) system.
